IMMERSION THERMOSTAT

91934020

IMMERSION THERMOSTAT

- Temperature setting range: 30°C ÷ 90°C ($\pm 3^\circ\text{C}$)
- Differential: $4 \pm 2^\circ\text{C}$
- Protection class: IP40
- Isolation class: II
- Thermal gradient: $< 1 \text{ K/min}$
- Maximum head temperature: 80°C
- Maximum capillary temperature: 110°C
- Maximum sheath pressure: 10 bar
- Contacts: Ag 1000/1000
- Contact outputs: 16A (5A) 250V AC
- Circuit breaker or switching contacts: SPDT type
- Action type: 1B
- Core hitch: M20x1,5
- Connecting thread: G1/2
- Length of the capillary: 85 mm
- Place of installation: in the tanks
