/grupaferro

**FERRO decorative valves combine technology, comfort, and elegance** – designed with modern bathrooms in mind, where every detail matters.

Created for contemporary interiors, they offer precise operation, user comfort, and high-quality aesthetics. Thanks to advanced construction and attention to detail, they not only ensure the perfect temperature but also seamlessly blend with the style of any bathroom.

- **Precise hydraulic balancing** of the installation thanks to presetting.
- **Ability to set a specific flow rate for each radiator** – the system operates stably and evenly, preventing overheating or underheating in individual rooms.
- **Reduced heat loss and energy consumption** by precisely matching flow to demand – leading to lower heating bills.
- **Presetting mechanism** enables quick and repeatable adjustment without the need for additional measuring devices.

## Elegant Design

Available in stylish finishes: chrome, black, white, and anthracite – allowing perfect matching to the bathroom or radiator style.

Integrated masking accessories ensure precise and professional installation finishing.

**ZTT30AT - Anthracite**

**ZTT30BL - Black**

**ZTT30CR - Chrome**

**ZTT30WH - White**

| Product Code   | Finish     | Type   | Spacing | Head    | Mounting Direction |
